Bowie Health Campus

## 25 Years of Caring for Bowie

More than 30 years ago, long before the first brick was laid, the citizens of Bowie knew a healthcare facility belonged here, too. They dared to dream of a one-of-a-kind medical facility in their neighborhood. And their resolve brought to life a state-of-the-art health center. Though numerous barriers were placed in its way, the committee of citizens supporting a healthcare facility in Bowie worked tirelessly to see their dream become reality.

The people of Bowie achieved their goal of creating a facility that is "unlike others." The Bowie Health Center is Maryland's only free-standing emergency facility. In addition, over the past 25 years, the Health Center has become a lifeline in the community, impacting the lives of countless local families. It is a place where the warmth of this tight-knit community permeates the hallways; a place where patients come back year after year and ask for doctors by name; and a place where families feel comfortable bringing their children for all the fevers and sprains they encounter in childhood because of the careful attention and skilled care they receive.

The citizens of Bowie always knew the Bowie Health Center would be a special place – and it is. Although plans turned out differently than expected, the Bowie Health Center has met a critical need for the people who worked so hard to bring it to life. It's needed here; and this community wouldn't be the same without it.
